**Erste Bank
der oesterreichischen Sparkassen AG**

The date of this Pricing Supplement is 21 February 2002

This Pricing Supplement, under which the Notes described herein (the **Notes**) are issued, is supplemental to, and should be read in conjunction with, the Offering Circular (the **Offering Circular**) dated 29 June 2001 issued in relation to the €10,000,000,000 Debt Issuance Programme of Erste Bank der oesterreichischen Sparkassen AG in respect of Notes issued thereunder. Terms defined in the Offering Circular have the same meaning in this Pricing Supplement. The Notes will be issued on the terms of this Pricing Supplement read together with the Offering Circular. The Issuer accepts responsibility for the information contained in this Pricing Supplement which, when read together with the Offering Circular, contains all information that is material in the context of the issue of the Notes.

This Pricing Supplement does not constitute, and may not be used for the purposes of, an offer of, or an invitation by or on behalf of anyone to subscribe or purchase any of the Notes.

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Notes, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

The Austrian Ministry of Justice has made an initiative to set up a private organisation ("**Verein**") which will assist customers (which qualifying as consumers) when making claims against banks in Austria. This organisation should in particular deal with cases in which - according to allegations by Austrian consumer protection associations and the Ministry of Justice (which is also responsible for consumer protection affairs) - consumers may be entitled to claims arising from interest and/or fees paid in excess of what would have been deemed appropriate according to applicable consumer protection provisions. Whether and to what extent such claims are justified depends on various legal issues which to date have not been solved by the courts. Hence it is not possible to give any reasonable estimate as to the extent that such claims may lead to repayments to consumers by Austrian banks. This holds true also for Erste Bank. As most other Austrian banks, Erste Bank has for the last few years been confronted with such claims by individual customers. Erste Bank has adopted a policy to discuss and review individual claims and to seek a mutually acceptable solution for each individual customer. Neither the number of such requests nor the amounts involved have increased significantly lately.

Another organisation is planned by the Austrian Banking Industry, details of which are presently discussed. It is expected that this institution will be modelled after similar institutions in other EU and OECD countries, but the exact scope of its tasks has not been defined to date.

Except as disclosed in the Offering Circular and herein, there has been no significant change in the financial or trading position or prospects of the Issuer or of the Group since 31 December 2000 and no material adverse change in the financial position or prospects of the Issuer or of the Group since 31 December 2000.
