(note 1) The data reported in this PO is based on information provided by the issuer and may include certain assumptions made by Moody's. Moody's accepts no responsibility for the information provided to it and, whilst it believes the assumptions it has made are reasonable, cannot guarantee that they are or will remain accurate. Although Moody's encourages all issuers to provide reporting data in a consistent manner, there may be differences in the way that certain data is categorised by issuers. The data reporting template (which Issuers are requested to use) is available on request.

(note 2) We may use a senior unsecured rating or a deposit rating, depending on a case-by-case analysis of the most appropriate reference rating for the CB anchor.

(note 3) Where the SUR already incorporates material levels of government support, the CB anchor may be positioned at SUR+0 regardless of the debt ratio. We will determine, on a case-by-case basis, the relevant level of support that would trigger the exception, but the level may apply to senior unsecured ratings that incorporate more than three notches of government support.

(note 4) This assumes the Covered Bonds rating is not constrained by the TPL Also to the extent rating assumptions change following a downgrade of the Issuer the pecassary OC stated here may also change. This is expecially significant in the case of Issuers currently rated A2 or A3 as the

(note 4) This assumes the Covered Bonds rating is not constrained by the TPI. Also to the extent rating assumptions change following a downgrade or an upgrade of the Issuer, the necessary OC stated here may also change. This is especially significant in the case of Issuers currently rated A2 or A3, as the necessary OC following a 1 notch downgrade may then be substantially higher than the amount suggested here as market risks are considered more critically by Moody's at this time. In any event, the necessary OC amounts stated here are subject to change at anytime at Moody's discretion. (note 5) This is the minimum OC calculated to be consistent with the current rating under Moody's expected loss model. However, the level of OC consistent with a given rating level may differ from this amount where ratings are capped under the TPI framework and, for example, where committee discretion is applied.

(note *) By operation of the Austrian Mortgage Bank Act, only loan parts within the first 60% LTV threshold are eligible for the cover pool. This requirement ensures that the 60% LTV threshold takes any prior ranks into consideration for the relevant cover test calculation. Based on the total loan amount, i.e. including the loan parts above the 60% LTV threshold (internal junior ranks), the weighted-average LTV would only be 51.94% if the LTV calculation disregarded any prior, equal or junior ranking loans, which are ineligible in terms of the relevant cover test calculations.

MIS, a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MIS have, prior to assignment of any rating, agreed to pay to MIS for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com under the heading "Shareholder Relations — Corporate Governance — Director and Shareholder Affiliation Policy."
