(note 1) The data reported in this PO is based on information provided by the issuer and may include certain assumptions made by Moody's. Moody's accepts no responsibility for the information provided to it and, whilst it believes the assumptions it has made are reasonable, cannot guarantee that they are or will remain accurate. Although Moody's encourages all issuers to provide reporting data in a consistent manner, there may be differences in the way that certain data is categorised by issuers. The data reporting template (which Issuers are requested to use) is available on request.

(note 2) We may use a senior unsecured rating or a deposit rating, depending on a case-by-case analysis of the most appropriate reference rating for the CB anchor.

(note 3) Where the SUR already incorporates material levels of government support, the CB anchor may be positioned at SUR+0 regardless of the debt ratio. We will determine, on a case-by-case basis, the relevant level of support that would trigger the exception, but the level may apply to senior unsecured ratings.

(note 4) This assumes the Covered Bonds rating is not constrained by the TPI. Also to the extent rating assumptions change following a downgrade or an upgrade of the Issuer, the necessary OC stated here may also change. This is especially significant in the case of Issuers currently rated A2 or A3, as the necessary OC following a 1 notch downgrade may then be substantially higher than the amount suggested here as market risks are considered more critically by Moody's at this time. In any event, the necessary OC amounts stated here are subject to change at anytime at Moody's discretion.

(note 5) This is the minimum OC calculated to be consistent with the current rating under Moody's expected loss model. However, the level of OC consistent with a given rating level may differ from this amount where ratings are capped under the TPI framework and, for example, where committee discretion is applied.

(note 6) Of which 21% needs to be provided on a committed form. The Issuer will commit before the end of MMM 2014.

(note 7) This assumes no prepayment.
